

# 1. Community Outcomes

- Three options suggested:
  - Use LTP 2015-18 set
  - Tweak LTP 2015-18 set to reflect results of Council workshop results
  - Agree a new set to reflect Council workshop results

# LTP 2015-18 Community outcomes

- Easy and safe to move around
  - Range of public and private transport options
  - Walkways and cycleways
  - Predictable travel times
  - Well managed safe and efficient
- A growing resilient economy
  - More successful businesses and more jobs
  - Skilled people are attracted to our district
  - Vibrant economy with education and career opportunities
- Clean, healthy and values environment
  - Natural and created environment is protected and enhanced
  - Harbour, foreshore and waterways are clean and healthy

- Vibrant and health Communities
  - District is full of life, activities and opportunities
  - Young people feel they belong
  - Leaders are nurtured
  - Communities and Maori assist in shaping our direction
- Well managed growth
  - City centre provides a strong heart
  - City centre is vibrant and attractive supporting the District's growth
  - Variety of connected public spaces
  - Existing settlements are consolidated
  - New residential areas are sustainable
  - Infrastructure is aligned to growth
  - Variety in type and location of housing

# Council workshop synthesis

#### • PROUD

- Sense of belonging and identity
- Safe and welcoming
- Inclusive

#### • NATURAL

- Clean harbours and waterways
- Thriving forests and parks
- Connecting people with nature
- Loved coastline and beaches

#### • CONNECTED

- Easy to get around
- Cycling and walking safely
- Smart communication technology
- Road, rail, air to Auckland

#### • LIVELY

- Always something to do and see
- Active and healthy people
- Thriving CBD
- Celebrating our arts, culture and heritage
- Embracing technology and opportunity

#### PROSPEROUS

- Future-focused
- Collaborative
- Rural/urban balance
- Clear and simple Council documents and rules
- Direct links to government

## Option two – a tweak

- E.g.
  - Easy and safe to move around
  - A prosperous district
  - Caring for our environment
  - Vibrant and healthy communities

## Option three – a new set

- E.g.
  - Proud to be a local.
    - Sense of belonging and identity
    - Safe and welcoming
    - Inclusive
  - Prosperous and positive
    - Future-focused
    - Collaborative
    - Rural/urban balance
    - Clear and simple Council documents and rules
    - Direct links to government
  - Caring for nature
    - Clean harbours and waterways
    - Thriving forests and parks
    - Connecting people with nature
    - Loved coastline and beaches

- Connected to each other and the rest of New Zealand
  - Easy to get around
  - Cycling and walking safely
  - Smart communication technology
  - Road, rail, air to Auckland
- Always something to do and see
  - Active and healthy people
  - Thriving CBD
  - Celebrating our arts, culture and heritage
  - Embracing technology and opportunity

### **Discussion**

## 2. How does Council decide priorities?

- There are two main options:
  - By vote
  - Using some form of assessment
    - Some form of cost: benefit
    - Weighted criteria
      - Based on early engagement
      - Based on Council workshop results
      - Mixed
  - Recommending weighted criteria (results still have to be voted on)

## **Survey Monkey – Ranking 1-10**

Which do you consider the MOST important for Council to focus on over the next 10 years (rank in order of importance 1-10). 1 = Most Important and 10 = Least Important - PLEASE NOTE: You cannot use the same number twice

### Interim Themes – public meetings

- Safety seen as part of core services (playgrounds, roads, footpaths)
- Community facilities/activities (mainly in regard to youth/retired)
- Seal extension
- Litter/illegal dumping (referred to Waste Minimisation Management Plan)
- Traffic flow (effects of growth)/alternative modes
- Walking and cycling, footpaths

#### **Council themes**

- Proud
- Prosperous
- Natural
- Connected
- Lively

### Earlier prioritisation framework

Making Whangarei Special Third priority – creating new services/assets that increase our sense of place

Raising Some Service levels (e.g. seal extensions)

Second priority – doing some things better than we do now e.g. seal extension, raising amenity

Getting the basics right

First priority - core services

#### New one?

#### Potential assessment criteria?

Score 1-3 (1 is low, 3 is high contribution)

Project	Supports pride and prosperity	A core service? Roads, water, wastewater, safety x3	An amenity improvement?	Adds to recreation opportunities?	Total
e.g.					
Hatea Loop	3 x5=15	0	3 x2=6	3	24
Seal extension	2 x5=10	3 x3=9	2 x2=4	0	23
Roadside Litter collection	2 x5=10	2 x3=6	2 x2=4	0	22

## Missing?

- E.g.
  - Cost
  - Contribution to community outcomes
  - •
