Submissions Long Term Plan 2018-2028 Consultation Document

Volume Seven A

SUBMISISON INDEX VOLUME 7a

Author	Page #	Hearing
Ruakaka Recreational Centre Inc Petition	2	

Submission to the Whangarei District Council Long Term Plan 2018-2028.

The Ruakaka Recreation Centre (RRC) is committed to providing recreation opportunities in Bream Bay. RRC sees itself as a crucial partner to the Whangarei District Council (WDC) as it aims to deliver social, cultural and environmental outcomes for the community. The community now asks that WDC show leadership in its decision making for recreation facilities.

The 2018 LTP:

The 2018 LTP provides a Service Level Statement as below..

7.2 Council will provide and maintain a range of reserves, including built facilities, to meet the needs of the community as well as protecting and enhancing the natural environment.

And

7.3 Council will convert or upgrade identified existing open spaces to provide a wider range of high quality recreational and leisure opportunities within the District for our community and visitors.

Below we explain why Council must assist in the Bream Bay facility if it stands by its intended LTP Measures. In the case of Bream Bay, Council has failed to meet these service levels. If Council indeed wishes to adhere to the LTP service levels, to abide by its requirements under Local Government Act and to support the youth and ratepayers of Bream Bay it should provide seed funding for this purpose built and well managed facility.

If it does not fund this in favour of other projects, on what basis has Council prioritised the projects? The criteria used for any group seeking funding would show this facility is the clear leader.

This is not a case of a group asking for funding to benefit a few. It is an offer of assistance from the community to WDC to design, build, fundraise and manage a facility which WDC itself should provide in whole to meet its LTP service level statements.

The Need:

The Ruakaka Recreation Centre Committee has two lease agreements for land at Ruakaka. They have managed the land for the benefit of the local community for many years. The existing building, built for the needs at the time, has been outstripped by demand. The building is fully booked and with a growing population the Bream Bay area requires additional indoor recreation and community space. The Whangarei District Council has not provided any indoor recreational space in Bream Bay historically, and that is now well overdue.

To assist WDC in providing for its community and ratepayers, the RRC have developed a building design, feasibility study and have in place existing governance and proven fundraising track record. To that end the RRC are surprised that WDC has not included the needs of the Bream Bay Community for

indoor recreation space in the Draft LTP 2018. Council was presented with the design, and advised of the feasibility and benefits of this facility to its ratepayers, however has not included budget to facilitate further fundraising towards the project. The Bream Bay Recreation Centre is worthy of a dedicated budget provision within the 2018 LTP in years 1 and 2 and Council can re-prioritise in order to gain the maximum benefit from this project. Council has not provided funding options within its draft LTP and has not provided an explanation as to why not.

There are several critical issues to consider very carefully.

1. No other community project has the same area of benefit, support or governance structure in place. This is the project with the highest future demand and largest catchment.
2. Over 1,000 letters of support have been received for this project. The project is supported by Sport Northland, Northland Football Federation and many other organisations who seek to improve the lives of local people.
3. If WDC provides seed funding in the LTP 2018, a further 2/3rd of the funding will be sought from other funders, one of which has already funded the feasibility study. Council has provided a letter of support for the new facility in its 2015 LTP.
4. A feasibility Study is complete.
5. The proven Governance Structure already exists.
6. The Land is available and already leased.
7. WDC can provide the facility with as little as 1/3rd of the funding required if it is assisted by the RRC in its project management and fundraising. Without the RRC help, WDC will need to bear the burden of fundraising and higher costs itself.
8. Bream Bay is identified as an area of high growth; Council must plan and provide adequately for that growth.
9. The existing facility cannot provide any further benefit.
10. The RRC is at present servicing a diverse community. There is a wide range of ethnic groups settling in Bream Bay. Like the existing population, a facility has to be able to satisfy a wide range of ages, both male and female. The new facility which has been designed on one level will cater for all levels of fitness. The RRC wishes to be as future proof as possible.
11. The link between mental health, especially of youth, and a foundation of good exercise and social development is well known. Bream Bay youth require Councils assistance to provide these facilities for their benefit.
12. WDC has budgeted the development of land, currently leased by the RRC into sports fields prior to it developing a Reserve Management Plan as it is required to do within the Reserves Act 1977. Such a process would identify priority needs for the community. Council has budgeted some \$1 million towards field development but has not considered a comprehensive park or recreation strategy for the area. RRC request a Reserve Management Plan. RRC support the development of new fields at Ruakaka.
13. The development of new fields still leaves the Bream Bay football fraternity without a club facility. Development of the new building would enable the current building to free up for use as a football building, near to the fields. Without this, Football could expect to spend over \$1 Million providing such a facility.
14. The WDC has identified several items in its "Interim Development Plan" the action items have been largely achieved by volunteers at Ruakaka.
15. RRC have fundraised and project managed facility development worth in excess of \$400,000 in the past few years, they have missed funding allocated through the WDC Community Amenities Development Programme (\$100,000) and have maintained the current building with their own resources.

Council has the ability to add a rate, to re-prioritise projects and to direct its budgets to the areas of most benefit in achieving its service levels. The above facts provide ample evidence to show that the support of the Bream Bay Multi Use Facility is a clear winner.

Please find enclosed letter of support number: 1 - 200

On behalf of the committee of the Ruakaka Recreation Centre

Yours Faithfully,

Christine Thirling
Secretary
Ruakaka Recreation Centre

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

Lh Orieland

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

Marilyn Cox

**Bream Bay
Coastal Care
Trust**

12 September 2017

Subject: Ruakaka Recreation Centre Development plans

To whom it may concern

The Bream Bay Coastal Care Trust is a regular user of the Ruakaka Recreation Centre.

We hold our annual general meeting with an invited speaker in the upstairs lounge and have just moved our regular monthly meetings to the recreation centre committee room.

We will also be hosting a public meeting with an invited speaker geologist, Dr. Bruce Hayward at the Recreation Centre in October.

From our perspective it is good to have a large room, capable of holding around 100 people as well as a smaller room for committee meetings in Ruakaka.

As we are a small, local, environmental group and like to channel our funds into practical items such as fencing, coastal native plants, weed control etc., we appreciate the fact that these rooms are available to us at minimum cost

A handwritten signature in dark ink, appearing to read 'Marilyn Cox'. The signature is fluid and cursive, with the first name 'Marilyn' being more prominent than the last name 'Cox'.

Yours Sincerely

Marilyn Cox

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

Ruakaka Recreation Centre (INC)

Submission to the Whangarei District Council Long Term Plan 2018-2028.

Enclosed letter of support number: 201 - 400

The Ruakaka Recreation Centre (RRC) is committed to providing recreation opportunities in Bream Bay. RRC sees itself as a crucial partner to the Whangarei District Council (WDC) as it aims to deliver social, cultural and environmental outcomes for the community. The community now asks that WDC show leadership in its decision making for recreation facilities.

The 2018 LTP:

The 2018 LTP provides a Service Level Statement as below..

7.2 Council will provide and maintain a range of reserves, including built facilities, to meet the needs of the community as well as protecting and enhancing the natural environment.

And

7.3 Council will convert or upgrade identified existing open spaces to provide a wider range of high quality recreational and leisure opportunities within the District for our community and visitors.

Below we explain why Council must assist in the Bream Bay facility if it stands by its intended LTP Measures. In the case of Bream Bay, Council has failed to meet these service levels. If Council indeed wishes to adhere to the LTP service levels, to abide by its requirements under Local Government Act and to support the youth and ratepayers of Bream Bay it should provide seed funding for this purpose built and well managed facility.

If it does not fund this in favour of other projects, on what basis has Council prioritised the projects? The criteria used for any group seeking funding would show this facility is the clear leader.

This is not a case of a group asking for funding to benefit a few. It is an offer of assistance from the community to WDC to design, build, fundraise and manage a facility which WDC itself should provide in whole to meet its LTP service level statements.

The Need:

The Ruakaka Recreation Centre Committee has two lease agreements for land at Ruakaka. They have managed the land for the benefit of the local community for many years. The existing building, built for the needs at the time, has been outstripped by demand. The building is fully booked and with a growing population the Bream Bay area requires additional indoor recreation and community space. The Whangarei District Council has not provided any indoor recreational space in Bream Bay historically, and that is now well overdue.

To assist WDC in providing for its community and ratepayers, the RRC have developed a building design, feasibility study and have in place existing governance and proven fundraising track record.

To that end the RRC are surprised that WDC has not included the needs of the Bream Bay Community for

indoor recreation space in the Draft LTP 2018. Council was presented with the design, and advised of the feasibility and benefits of this facility to its ratepayers, however has not included budget to facilitate further fundraising towards the project. The Bream Bay Recreation Centre is worthy of a dedicated budget provision within the 2018 LTP in years 1 and 2 and Council can re-prioritise in order to gain the maximum benefit from this project. Council has not provided funding options within its draft LTP and has not provided an explanation as to why not.

There are several critical issues to consider very carefully.

1. No other community project has the same area of benefit, support or governance structure in place. This is the project with the highest future demand and largest catchment.
2. Over 1,000 letters of support have been received for this project. The project is supported by Sport Northland, Northland Football Federation and many other organisations who seek to improve the lives of local people.
3. If WDC provides seed funding in the LTP 2018, a further 2/3rd of the funding will be sought from other funders, one of which has already funded the feasibility study. Council has provided a letter of support for the new facility in its 2015 LTP.
4. A feasibility Study is complete.
5. The proven Governance Structure already exists.
6. The Land is available and already leased.
7. WDC can provide the facility with as little as 1/3rd of the funding required if it is assisted by the RRC in its project management and fundraising. Without the RRC help, WDC will need to bear the burden of fundraising and higher costs itself.
8. Bream Bay is identified as an area of high growth; Council must plan and provide adequately for that growth.
9. The existing facility cannot provide any further benefit.
10. The RRC is at present servicing a diverse community. There is a wide range of ethnic groups settling in Bream Bay. Like the existing population, a facility has to be able to satisfy a wide range of ages, both male and female. The new facility which has been designed on one level will cater for all levels of fitness. The RRC wishes to be as future proof as possible.
11. The link between mental health, especially of youth, and a foundation of good exercise and social development is well known. Bream Bay youth require Councils assistance to provide these facilities for their benefit.
12. WDC has budgeted the development of land, currently leased by the RRC into sports fields prior to it developing a Reserve Management Plan as it is required to do within the Reserves Act 1977. Such a process would identify priority needs for the community. Council has budgeted some \$1 million towards field development but has not considered a comprehensive park or recreation strategy for the area. RRC request a Reserve Management Plan. RRC support the development of new fields at Ruakaka.
13. The development of new fields still leaves the Bream Bay football fraternity without a club facility. Development of the new building would enable the current building to free up for use as a football building, near to the fields. Without this, Football could expect to spend over \$1 Million providing such a facility.
14. The WDC has identified several items in its "Interim Development Plan" the action items have been largely achieved by volunteers at Ruakaka.
15. RRC have fundraised and project managed facility development worth in excess of \$400,000 in the past few years, they have missed funding allocated through the WDC Community Amenities Development Programme (\$100,000) and have maintained the current building with their own resources.

Council has the ability to add a rate, to re-prioritise projects and to direct its budgets to the areas of most benefit in achieving its service levels. The above facts provide ample evidence to show that the support of the Bream Bay Multi Use Facility is a clear winner.

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

To Whom it May Concern

Re Ruakaka Recreation Centre Upgrade of Facility

I am a chi kung teacher and do a class at Ruakaka Recreation Centre every Wednesday morning. There is no doubt that the current building is in a very vulnerable state, a fact highlighted last week when myself and those participating in the class arrived to find water dripping from the ceiling on the upstairs landing! I understand that the wheels are in motion to access funding to replace the roof and I am concerned that this happens as soon as possible.

The proposed building of a new multi generational facility is fantastic initiative and one which would be of enormous benefit to the people of Ruakaka and the Bream Bay area. The chi kung exercise class I do tends to be for older people but is by no means limited to this age group. As a result of my involvement with the community both as a chi kung teacher but also as a parent with children who used to go to Bream Bay College and were involved in local sports, I know of many people who would use the facility both young and old.

As it is Ruakaka is a very spread out community so the plan to build a facility which would encourage the community to come together for sports, social and recreation activities would be particularly beneficial.

I wholeheartedly support the proposal to build the new multigenerational facility as an addition to the existing Recreation Centre at Ruakaka.

Yours sincerely

The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

Name: Anika Hall
Address: 271 onetree point Road
Phone: 0211840356

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

Ruakaka Recreation Centre (INC)

Submission to the Whangarei District Council Long Term Plan 2018-2028.

Enclosed letter of support number: 401 - 600

The Ruakaka Recreation Centre (RRC) is committed to providing recreation opportunities in Bream Bay. RRC sees itself as a crucial partner to the Whangarei District Council (WDC) as it aims to deliver social, cultural and environmental outcomes for the community. The community now asks that WDC show leadership in its decision making for recreation facilities.

The 2018 LTP:

The 2018 LTP provides a Service Level Statement as below..

7.2 Council will provide and maintain a range of reserves, including built facilities, to meet the needs of the community as well as protecting and enhancing the natural environment.

And

7.3 Council will convert or upgrade identified existing open spaces to provide a wider range of high quality recreational and leisure opportunities within the District for our community and visitors.

Below we explain why Council must assist in the Bream Bay facility if it stands by its intended LTP Measures. In the case of Bream Bay, Council has failed to meet these service levels. If Council indeed wishes to adhere to the LTP service levels, to abide by its requirements under Local Government Act and to support the youth and ratepayers of Bream Bay it should provide seed funding for this purpose built and well managed facility.

If it does not fund this in favour of other projects, on what basis has Council prioritised the projects? The criteria used for any group seeking funding would show this facility is the clear leader.

This is not a case of a group asking for funding to benefit a few. It is an offer of assistance from the community to WDC to design, build, fundraise and manage a facility which WDC itself should provide in whole to meet its LTP service level statements.

The Need:

The Ruakaka Recreation Centre Committee has two lease agreements for land at Ruakaka. They have managed the land for the benefit of the local community for many years. The existing building, built for the needs at the time, has been outstripped by demand. The building is fully booked and with a growing population the Bream Bay area requires additional indoor recreation and community space. The Whangarei District Council has not provided any indoor recreational space in Bream Bay historically, and that is now well overdue.

To assist WDC in providing for its community and ratepayers, the RRC have developed a building design,

feasibility study and have in place existing governance and proven fundraising track record.

To that end the RRC are surprised that WDC has not included the needs of the Bream Bay Community for indoor recreation space in the Draft LTP 2018. Council was presented with the design, and advised of the feasibility and benefits of this facility to its ratepayers, however has not included budget to facilitate further fundraising towards the project. The Bream Bay Recreation Centre is worthy of a dedicated budget provision within the 2018 LTP in years 1 and 2 and Council can re-prioritise in order to gain the maximum benefit from this project. Council has not provided funding options within its draft LTP and has not provided an explanation as to why not.

There are several critical issues to consider very carefully.

1. No other community project has the same area of benefit, support or governance structure in place. This is the project with the highest future demand and largest catchment.
2. Over 1,000 letters of support have been received for this project. The project is supported by Sport Northland, Northland Football Federation and many other organisations who seek to improve the lives of local people.
3. If WDC provides seed funding in the LTP 2018, a further 2/3rd of the funding will be sought from other funders, one of which has already funded the feasibility study. Council has provided a letter of support for the new facility in its 2015 LTP.
4. A feasibility Study is complete.
5. The proven Governance Structure already exists.
6. The Land is available and already leased.
7. WDC can provide the facility with as little as 1/3rd of the funding required if it is assisted by the RRC in its project management and fundraising. Without the RRC help, WDC will need to bear the burden of fundraising and higher costs itself.
8. Bream Bay is identified as an area of high growth; Council must plan and provide adequately for that growth.
9. The existing facility cannot provide any further benefit.
10. The RRC is at present servicing a diverse community. There is a wide range of ethnic groups settling in Bream Bay. Like the existing population, a facility has to be able to satisfy a wide range of ages, both male and female. The new facility which has been designed on one level will cater for all levels of fitness. The RRC wishes to be as future proof as possible.
11. The link between mental health, especially of youth, and a foundation of good exercise and social development is well known. Bream Bay youth require Councils assistance to provide these facilities for their benefit.
12. WDC has budgeted the development of land, currently leased by the RRC into sports fields prior to it developing a Reserve Management Plan as it is required to do within the Reserves Act 1977. Such a process would identify priority needs for the community. Council has budgeted some \$1 million towards field development but has not considered a comprehensive park or recreation strategy for the area. RRC request a Reserve Management Plan. RRC support the development of new fields at Ruakaka.
13. The development of new fields still leaves the Bream Bay football fraternity without a club facility. Development of the new building would enable the current building to free up for use as a football building, near to the fields. Without this, Football could expect to spend over \$1 Million providing such a facility.
14. The WDC has identified several items in its "Interim Development Plan" the action items have been largely achieved by volunteers at Ruakaka.
15. RRC have fundraised and project managed facility development worth in excess of \$400,000 in the past few years, they have missed funding allocated through the WDC Community Amenities

Development Programme (\$100,000) and have maintained the current building with their own resources.

Council has the ability to add a rate, to re-prioritise projects and to direct its budgets to the areas of most benefit in achieving its service levels. The above facts provide ample evidence to show that the support of the Bream Bay Multi Use Facility is a clear winner.

Please find enclosed letter of support number: 401 - 600

On behalf of the committee of the Ruakaka Recreation Centre

Ruakaka Recreation Centre Multipurpose Facility

On behalf of Sport Northland, I am writing in support of the Ruakaka Recreation Centre's plan to develop a multipurpose facility to complement their existing facility in Ruakaka.

Sport Northland currently engage with the Ruakaka Recreation Centre through the delivery of Green Prescription clinics and classes out of the Centre and has recently undertaken capability development work with the committee to improve capability and participation numbers.

The development of a multipurpose facility was initiated six years ago and has been driven by an enthusiastic group of volunteer committee members. The committee has consulted with the local community obtaining valuable feedback; current facilities are outdated and too small for a fast growing community with increasing school roles.

The local committee driving the project has done a tremendous job so far in getting the project to where it is now – much planning work has been completed, with an experienced local company engaged to undertake feasibility work.

The proposed facility would offer a wide range of activities that promote social interaction, culture, wellness and sport and recreation opportunities for the whole community. The design would provide a multi-use space able to cater for a wide range of indoor sports, concerts, performing arts and other cultural events.

Funders in today's climate cannot afford to fund single-purpose facilities, so the Ruakaka Recreation Centre's proposal ticks all the right boxes, and far from being grandiose in design is thoughtfully scaled, truly multipurpose, and cost-effective.

Funding support to help develop this facility would be a significant boost to a fast growing community with a lack of quality sporting and recreational facilities. We encourage you to do everything possible to enable this fantastic and greatly needed community-led development to become realized.

Thank you for the opportunity to support this project.

Yours sincerely

Christine Thirling
PO Box 123
Ruakaka
Whangarei 0116

Dear Christine

Whangarei District Council Long Term Plan - Letter of Support

Whangarei District Council received your submission at the 2015 – 2025 Long Term Plan and resolved as follows.

Ruakaka Recreation Centre

The Ruakaka Recreation Centre would like to build a multi-events centre on Council land next to the existing facilities. In order to enable the Centre to progress feasibility studies and funding applications, a letter of support from Council as the landowner will be provided, as requested.

To that end this letter confirms Council's support for the proposal presented to it.

Thank you for your contribution to recreation in the District.

Yours faithfully

Paul McDonald
Parks and Recreation Manager

21 July 2017
Bream Bay United AFC

Re: Ruakaka Recreational Centre plans for the new recreational centre in Ruakaka

To Whom it may concern

Bream Bay United Football club (BBU) fully supports the Recreation Centres plans for a new multipurpose facility.

BBUAFC are one of many users of the current facility and believe the community will greatly benefit from the building of a new multipurpose facility that will meet the needs of this growing community.

Additionally as a football club we have grown our membership substantially over the last few years and need this centre in order to have the facilities required to properly support our members, playing and visiting teams into the future.

I hope that you will support this initiative and any finding applications that may come about as part of taking this initiative forward..

Yours faithfully

A handwritten signature in black ink, appearing to read "Mike Davies".

Mike Davies
Chairman

Ruakaka Parish Residents and Ratepayers Association Inc.

PO Box 151, Ruakaka, 0151

24 September 2017

To Whom It May Concern,

Re: Support for Proposed Multi-Purpose Building at Ruakaka

This letter is to advise you that Ruakaka Parish Residents and Ratepayers Association Inc., fully supports the construction of a multi-purpose facility by Ruakaka Recreation Centre on land leased to them by Whangarei District Council at Ruakaka.

We fully support the Ruakaka Recreation Centre Committee in its fund-raising applications to all sources of funding.

We also fully support the inclusion of the project in the Whangarei District Council's 2018-28 Long Term Community Plan

We understand that the proposal will cater for the needs of residents of all ages and abilities.

Ruakaka is a rapidly developing area with a fast growing population. It is now a significant town. The proposed multi-purpose facility will be desperately needed to fulfil the recreational and cultural needs of our community

We wish the Ruakaka Recreation Centre every success in their endeavours and look forward to the construction of a very essential and worthwhile facility in Ruakaka.

Yours faithfully,

(WJ Daniel)

021 1723568

17/08/2017

To whom it may concern,

The Ruakaka Recreation Centre has gone from strength to strength under the current management. I have been hiring the upstairs room to run my speech and drama classes since February of 2016. I previously hired the facility for a short period in 2007.

The upper room is clean, tidy and is well appointed with carpet curtains and a heat pump. Christine is pleasant and friendly to communicate with and is a credit to the centre. Under her management, the upper room, which was previously dirty and smelt of stale smoke and alcohol like a pub, has been transformed into a pleasant area that I am happy to teach my students age 8-18. Creative hanging of curtain rails which are recycled industrial pipes suggest a considered use of finances. The room rate is fair and suitable to the small groups I teach, meaning I don't have to pass on overhead cost to my clients – Bream Bay families.

Despite the exterior, external stairs, lighting, stairwell, lift, storage, kitchen and bathrooms being dated and in urgent need of renovation I would recommend the facility to anyone who needed to hold an event based on the efficacy of the management and cleanliness of the facility.

While there are one or two motels that offer meeting facilities in Bream Bay, a facility like this has the potential to be a community hub hosting diverse events including, business events, conventions, theatre, sports exchange, kapa haka events and expos. Under the current management, I have no hesitation in recommending the Ruakaka Recreation Centre receive the funding it needs to update and expand its facilities to better reach its potential and serve this rapidly growing community.

Regards

Helen Morton-Jones LTCL RTSCA

WAIPU & RUAKAKA KARATE CLUB

7th August, 2017

Dear Christine,

Following our recent conversation when you advised me you were looking at building a new hall in Ruakaka, I must admit to being blown away by the endless possibilities this hall could have and just what it could do for the local community.

We have all seen how the skate park has provided a hub for many local children and young adults, how they have adopted this area and made it their own. But there are still many youngsters who do not like skateboarding but have nowhere to go to play basketball, football (indoor football with a soft ball), badminton etc. and for them this could be just what they need to give them a purpose and take them off the streets. Indeed, seeing how sad it was for everyone when that local boy died at New Year from drinking - if the proposed hall saved just one life by giving kids something else to focus on, it would be a brilliant job extremely well done!

I am pleased to hear also you are planning to keep the build as cheap as possible - the one complaint I keep hearing about the new hall in Waipu is the cost to hire it which has put it out of reach for most local activities. Indeed, we had a really well attended circuit training group there which was amazing for the local ladies but sadly the cost rose from \$10 per hour to \$70 in the new hall so the class has to relocate and as it was not so accessible, closed.

Please rest assured the karate club is behind you all the way. Ken and I both think this could be just what is needed to change lives and make a difference.

Kind regards

Pam Crawley

CONTRAST YOGA

0211643572

4 August 2017

Ruakaka Recreation Centre
Takutai Place
Ruakaka

To whom it may concern,

I currently take yoga classes out of the Ruakaka Recreation centre, and have found the facilities for such an up and coming area to be less than adequate. The very dated centre despite the impeccable upkeep by the committee members with their tireless effort is due for a revamp.

Ruakaka is an amazing area with an ever increasing population as is noticeable and verifiable with the local schools and real estate housing prices. The growing number of families who have to drive long distances to ensure their children access sports is unacceptable when there is a capability for expansion in our own local area.

There is certainty that a new Recreation centre that accommodates the diverse needs of its community with swimming, gymnasium, studio, fitness, football, basketball facilities will add unprecedented value to the area and with that, future development.

I wholeheartedly support the concept for a new Recreation centre as I live in this community, my children go to school here, I work at a local school, and I see the need for keeping our children and our elderly supported and occupied in their own environments.

Ruakaka Recreation centre is for the community, and with our rates, I believe this concept is money well spent, and I look forward to being an ongoing supporter of this initiative.

Kind Regards

Mirella Aprea

NEW ZEALAND DEERSTALKERS ASSOCIATION

e-mail a.j.webster@xtra.co.nz

09-08-17

To whom it may concern,

RUAKAKA RECREATION CENTRE

This organisation represents a group of hunters and target shooters from the greater Whangarei area including many from Ruakaka and surrounding areas. We are one of 50 clubs from throughout New Zealand and we strongly welcome and endorse the establishing of a proposed underground shooting range as part of the Ruakaka Recreation Centre.

There are increasing numbers of new firearms licence applications through our Whangarei Police and increasingly less shooting ranges for these shooters. Over the last 14 years there have been three major and two minor range closures with only two minor ones recently to replace them. This is a concern for regular target shooters, such as our members and in particular, new applicants.

Shooting is a sport that can be enjoyed by a large number of the public and as an example we have club members from 4 years old up to 86 and 1 paraplegic member who can enjoy target shooting and to think we could get a facility, undercover would be just magic for these members to enjoy as well.

The overall effect this added attraction would bring to a fast growing area such as Ruakaka would be beneficial to everyone particularly being only one and a half hours away from the major population of Auckland.

Yours Faithfully

Alan J Webster

President

Sporting Shooter Association of New Zealand Inc

PO Box 275

Whangarei 0140

Tel: 09 436 4065

e-mail- oilrag@xtra.co.nz

8 August 2017

To whom it may concern,

Ruakaka Recreation Centre

This organisation which represents the interests of sporting shooters throughout New Zealand, fully endorses the establishment of the proposed new recreation facility at Ruakaka to include an underground shooting range

With an increasing number of people applying for their firearm licence and taking up the sport of shooting there is a growing need for more shooting ranges, so that they can enjoy the sport in a safe environment. Since many existing ranges throughout the country are threatened with closure due to urban expansion or sale of private land a new complex that caters for several shooting disciplines would be a valuable asset for the Whangarei District.

Shooting is a sport that can be enjoyed by people of all ages, genders and degrees of physical ability. It provides opportunity for those who wish to interact with others with similar interests, compete as a member of a team or simply hone their individual skills. Since safety is paramount it also provides opportunity for developing self discipline and a sense of responsibility in those taking part.

It is also to be anticipated that such a complex as proposed will bring economic benefits to Ruakaka in terms of visitors for national competitions.

Yours faithfully

Christine Thirling Coordinator.
Ruakaka Recreation Centre.

Dear Christine,

As a licensed firearm owner and keen target shooter, I wish to endorse the proposed development of an indoor/underground shooting range in the new multipurpose facility at Ruakaka.

A community asset such as this will provide a number of positives for the area.

The rapidly expanding population will be provided with another sporting activity which can be enjoyed by people of all ages.

I would expect a local shooting club would be formed to manage the range, and training sessions in the safe use of firearms run by them would be beneficial to the younger members of the community. Once built the Police would most likely take advantage of having a training site close by.

As the range would be twenty minutes drive from Whangarei, and around an hour and a half from Auckland, I would envisage a significant number of shooters from a much wider area than just the "locals" would welcome this shooting venue.

If run correctly, by the shooting organisations involved, events such as local and national shoots plus the use by individuals would enable the asset to be self sufficient financially.

Such a community asset be a "winner".

Yours faithfully,
Terry Douglas

Hello. I am a member of the National rifle association nz, deer stalkers nz. I have a broken neck so I shot from a wheelchair over a table. At the moment I travel one hour twenty minutes north to the hills at Oramahoe to shoot at a range which I can do during the week. I shoot targets on an average three times a month.

To have a facility you are envisaging so close to home would be just so exciting and exhilarating that I personally would use it very regularly no matter what cost.

Please bring it on!

I am contact able at 027 316 4772. Thank you for your vision.

Attention: Cristine Thirling

Dear Cristine,

It is good to hear about the new Recreation Centre that you and your team have been planning for the community. This would be a real boon for people in the region, as having everything in one new design from the start is always better than adding on various bits over a facility's lifespan.

I am especially interested in the possibility of a new shooting facility nearer Whangarei as this is something the area has been lacking for many years.

I wholeheartedly support your endeavours in this.

Yours Sincerely,

My fax 03 473 1117

My cellphone: 027 473 8318

Dear Ms,

I understand there is a proposal for constructing a range complex to serve the needs of the lawful arms users of the Whangarei region. I hereby offer a submission in support of this proposal, for the following reasons.

1. I have had over 40 years experience in firearm use, and until recently, instructed on behalf of the NZ Mountain Safety Council (Inc) as a volunteer firearm safety instructor. Since then I have undertaken similar work but as a Police Volunteer. I also serve in a volunteer capacity to help operate a public rifle range near Dunedin and train range officers for various groups including those of Target Shooting New Zealand, the New Zealand Deerstalkers' Association and for local rifle clubs. I hold Unit Standard qualifications in ammunition handling, metallic cartridge reloading and in range consultancy.
2. In my view the provision of a certificated facility will attract law-abiding users;
3. Such a facility will therefore diminish unlawful shooting activities at inappropriate sites elsewhere as the public appreciates the existence of this facility;
4. The proposed facility will be of immense benefit for firearm safety training and for developing the skills for the competent handling of firearms, particularly for firearms in the hunting field as well as those of competition shooters, including aspiring Olympians and Commonwealth Games competitors;
5. Skills acquisition in competent firearm use can only be developed by 'hands-on' practice, and is essential for ensuring humane kills of game animals. Such requirements are increasingly likely to be needed by hunters in the future, as public concerns about lawful recreational hunting are fostered by inappropriate and wrong-headed news media reports;
6. Public safety can best be served in my view by the provision of such a facility and you are to be commended for heading this organisation.

Yours faithfully,

Chaz Forsyth

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

Phone: 4327565

To whom it may concern

This letter is written in support for the Ruakaka Recreation Centre's proposed project- the multi generational facility.

The Ruakaka Recreation Centre is serving a large cross section of its community, both in age and ethnic backgrounds. The current building is outdated and too small to cater for the ever increasing population of Ruakaka and surrounding areas. The new facility will attract a wider section of the community who may have ideas to further the Ruakaka Recreation Centre's cause in producing a healthier community. In the long term the Ruakaka Recreation Centre will cater for the future generation. This new facility will provide a local hub of activities to cater for the whole family with an emphasis on supporting education, well-being and fitness. We are positive that the multi generational facility will contribute to the long term sustainability and growth of the district.

Yours faithfully

F. Krsinic
